

*"I was in Henderson yesterday at the Community Garden we did with Welborn and although I heard it was doing well, I was blown away by the neighbors involvement. In a 30 minute visit I met 5 or 6 neighbors and got to see them watering and harvesting cucumbers, watermelons, tomatoes and beyond. The stories and enthusiasm was unbelievable. I always thought a community garden was a nice idea, but it's a high impact neighborhood development anchor. Very cool way to engage and serve the neighbors in an under resourced area."*
